FACIAL SCRUB pure earth & herbs - energy cleansing

PRIMEVAL - ENERGIZING - NATURAL CARE PRODUCT LINE

EN

Dear friends of AGEMA,

You have already selected or been given as a present a facial scrub from the Primeval line of AGEMA.

We are certain that you belong, just like us who created it, with those who cherish, communicate with and respect nature and all its creatures, who are enquiring and selective, love expansion and evolution, accept changes and novelty, transmuting them into positive expectations and creativity, are unconventional and revolutionary, take risks and dare, want, believe and aspire, admire beauty and get to discover their true, clear and brilliant self...

This is how we created AGEMA, totally natural, true, void of any kind of preservative or other chemical substance, from wild herbs of the perpetually full of energy valley of Dodoni, taken from only one harvest per year (during their florescence period).

Especially for the primeval – energizing "Facial Scrub Pure Earth & Herbs" for women by AGEMA, there was a collaboration of ... calendula, wild radish, mallow, yellow soil, the sun, the moon, the stars and certain sonic vibrations of the area.

All this exchange – co-operation of natural forces and vibrations of the natural environment of the valley of Dodoni which lasts 105 days, is transferred with AGEMA acting as a carrier, truly, cleanly and naturally to our body.

PROPERTIES OF "PURE EARTH & HERBS" SCRUB

They cleanse in depth, both on a natural and an energy level, exfoliate, boost and stimulate the lymphatic circulation. They tighten, remove dead cells and reveal a fresh, clean and bright skin. They co-ordinate and bring order to the cellular functions. They activate primeval registered anti-ageing processes in our cells. Gradually, we sort out and dispose of any "non useful" element on every level, we lighten, open up and create positive, true, clean energy. We normalize our internal and external conflicts, reconciling our inner with our outer image.

In order to perfect the result of the complete Primeval energy facial care with AGEMA, it is best to begin with Facial Scrub Pure Earth & Herbs. In between we should make use of the respective mask "Energy Glow Facial Mask" and then we conclude the treatment with "Facial Elixir Revitalizing & Repair".

DIRECTIONS

We soak our face well with warm water to induce dilation of the pores and we spread with circular movements, almost caressing our face with the scrub until the whole area of our skin is covered with its natural ingredients. We place it somewhere that it will be kept dry and then we massage the face with similar circular movements for 2-5 minutes. We do not need to "rub" the scrub on the face and we do not soak the scrub itself under running water. After the massage, we leave the skin for a few minutes to absorb what it needs from the ingredients of wild herbs and wash off with cool water to intensify the tightening properties and the contraction of the pores. You will already ...have loved the process seeing the result!!!

The use of the scrub, whether for the face or the body, can be repeated 2-3 times a week.

UNIQUE CHARACTERISTICS OF "AGEMA" PRODUCTS.

The packing of the Scrub of the Primeval AGEMA line is the only one which is not protected by natural mud because it is the only category of products that does not need energy protection.

The price of AGEMA products refers to the value of the "natural" product. The eternal, inexhaustible energy emanating from the valley of Dodoni is not a marketable commodity and as such it is bounteously given out to the friends of AGEMA.

The primeval Dodonian method of production and activation of the products which is utilized and lasts 105 days, is an exclusive patent and it is attested and protected by the Ministry of Development and in accordance with the National Medicine Organization and the European Legislation in force.

Combine the AGEMA products between them and indulge yourselves with their natural - energizing - primeval vibrations.
